

# Welcome to Command Central

The all-in-one solution built to manage the life of your electronic case.

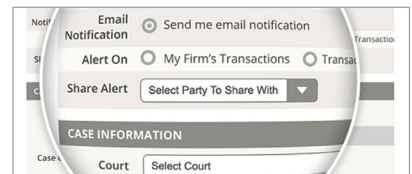

## Smart eFiling™

eFiling that works the way you do. Secure, online, centralized, and flexible for the full-spectrum of litigation complexity.

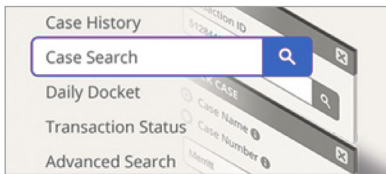

## eService

Eliminate uncertainty and lag time when you send documents to opposing counsel. Receive instant proof of your electronic service delivery.

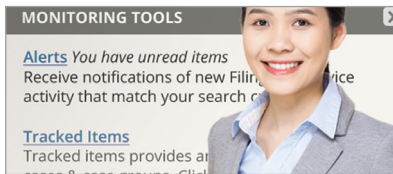

## Case Alerts

Our electronic assistant is ready to proactively monitor the system 24x7x365 for new case activity based on your custom parameters.

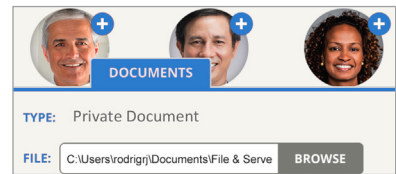

## Searchable Repository

Search within your own cases as well as around the country with our fully customizable Case History Searches. It's quick and easy to find the cases you need with just the click of a button.

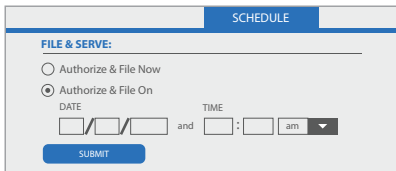

## Tracking Across Cases

Identify specific cases you want to "Track" even if you or your firm is not involved with the case. You'll love the simple, "at-a-glance" view of your tracked cases and case groups.

## Complete Case History

Welcome to your virtual fileroom. No need to save, name and re-assemble litigation documents. Your documents never expire and are always intact and available online.

## Scheduling

Scheduling submittals for future dates and times allows you to simplify your litigation workflow and gain the competitive edge when timing your case transactions.

## Quick Bill™

Obtain up-to-the-moment billing information 24/7. Billing reports are customizable by user, court, case, and fee types to give you the most flexible reporting available.
