

## **Sr. Software Engineer - .NET Developer**

### **Position Summary**

File & ServeXpress LLC (FSX) is a premier provider of electronic filing and electronic service applications for the legal industry.

The Sr. Software Engineer will be proficient in C#, LINQ, and ASP.NET Web API. You've built systems with technologies like Entity Framework, SQL Server, and Azure Functions. You can rock a project on your own or as part of a team.

### **Essential Job Functions**

- Design, Develop, and maintain solutions for FSX's clients
- Participate in all steps of the Agile process including Sprint Planning, Sprint Review, Sprint Retrospective, and Daily Scrum
- Thoroughly test through both automated and manual means all code to prove its effectiveness
- Collaborate and help team members by sharing knowledge and combining brainpower to solve problems
- Look for ways to improve processes and functionality to further deliver increased value to FSX's clients
- Mentor and manage other Software Engineers

### **Required Knowledge Domains**

- C#, .NET Framework and/or .NET Core, ASP.NET Web API
- SQL Server Experience; can also be any RDBMS: Oracle, DB2, MySQL, Postgres
- Demonstrated experience working on applications with multiple services/aspects working together, consuming and/or producing data to specification
- Experience with Git and GitFlow branching.
- Deep knowledge of software development lifecycle best practices, including source control, testing, security, maintainability, code reuse, etc.
- Drive to understand the vision of a project and work closely with team members to see it through to completion
- Read, understand, and write technical documentation and understand how underlying frameworks and libraries function
- Ability to communicate with non-technical stakeholders

### **Required Experience**

- Bachelor's degree in Computer Science or equivalent experience
- 5 years of experience in a prior software engineering role including interactions with nontechnical stakeholders
- Active GitHub profile preferred
- Nice to have: Messaging experience with technologies like Azure Service Bus, ActiveMQ, Amazon SQS, or similar
- Experience in Agile/Scrum methodologies is a plus
