## Background Information

Wyoming trial courts use an electronic filing (eFiling) system hosted by File & ServeXpress (FSX).<sup>1</sup> This manual supplements the FSX training provided to Wyoming attorneys with information specific to eFiling in Wyoming. All eFilers should attend the FSX training and become familiar with the information found at the following links:

- <https://www.wyocourts.gov/efiling/>
- <https://www.wyocourts.gov/court-rules/wyoming-rules-for-electronic-filing-and-service/>
- <https://www.fileandservexpress.com/wyoming/>

## Registration

Use the Wyoming Law Firm User Onboarding Checklist to register. A copy of the checklist can be found at the following link:

- <https://www.fileandservexpress.com/wp-content/uploads/2023/12/WY-Firm-User-Onboarding-Checklist.pdf>

Some key points to remember about registering:

- ✓ Register the Firm first.
- ✓ Register as an Attorney at the Firm.
- ✓ Complete the Wyoming Proficiency Exam.
- ✓ Ensure the name, address, and Wyoming Bar ID number matches what is on file with the Wyoming State Bar.
- ✓ The Wyoming Bar ID number must include the dash and be entered in the format X-XXXX (e.g., 1-2345).

## Fees

Wyoming does not charge additional fees to use FSX. Fees required by statute or rule are attached to the appropriate document type in FSX. FSX will advance these fees to the court on the attorney's behalf. After advancing the fees, FSX will invoice the attorney to recover the fees.

Contact the court if the document type available to select does not show the appropriate fee per statute or rule.

---

<sup>1</sup> This guide is provided as a courtesy for attorneys who eFile documents in Wyoming courts and is not a substitute for court rules and applicable statutes. Attorneys are responsible for reviewing and complying with all court rules and statutes governing eFiling.

Some courts have an additional “Law Library Fee”. To eFile into a court that has this fee, look for a selection in the Review & Submit page and apply the fee to the filing. Contact the local court for guidance on this fee.

When using the Inventory and Appraisal document type, look on the second page of the Review & Submit screen to enter the appropriate dollar amount for the filing.

FSX does offer optional services to attorneys for additional costs, such as US Mail Service and Alert setup. Refer to the FSX website for current offers.

## Access to Wyoming Cases in FSX

FSX is not intended to provide public access to case information.<sup>2</sup> Access to case documents within FSX is restricted to registered FSX users explicitly listed as representing a party in the case.

Attorneys representing a party can search for non-confidential cases and eFile an entry of appearance. Access to the case documents will only be granted once the entry is confirmed by the clerk.

<sup>2</sup> For a fee, FSX provides remote access to chancery case records to registered FSX users who are not listed as representing a party on the case. This service is not available in district or circuit court.

**NOTE:** Public access of non-confidential case records is provided at Wyoming courthouses using Public Access terminals. Attorneys and their staff may not provide case information to any non-parties. The interested public should request case information from the clerk.

## Visibility and Limited Case Access

Limited case information is visible to attorneys not on the service list. For non-confidential cases, this includes non-confidential party names, the document titles and basic case information such as title, number, filing date and jurisdiction. If parties are confidential, such as with minor's names, "Confidential" will show as a placeholder for the first and last name.

**NOTE:** Minor's names are public when they are a party to the action.

Once added to the service list, attorneys gain access to all confidential party names, and documents.

Information on confidential cases cannot be viewed in FSX until the attorney is added to the service list. Once added, attorneys gain access to all party information, documents, and case information.

## Data Field Requirements

The completion of the following field requirements aids the transfer of data between FSX and the Case Management System (CMS).

## Character Limitations

FSX imposes character limits on certain information fields. The following fields are subject to these predefined constraints:

- Case Name (or case caption) = 200 characters
- Document Title = 250 characters
- Organization Name = 100
- Party First Name = 30 characters
- Party Middle Name = 20 characters
- Party Last Name = 55 characters

The system prevents additional characters from being entered once the limit is reached.

## What Cannot be eFiled?

Exceptions to eFiling can be found in the *Wyoming Rules for Electronic Filing and Service*. Current exceptions include, but are not limited to:

- When the court finds exceptional cause exists to allow a document to be Traditionally Filed.
- When the attorney is representing a person or entity who is not a party to the case, i.e., amicus, witness, etc., except in Chancery Court where this exception does not apply.
- A document or image that is prohibited from electronic storage by federal or state law.
- Non-paper or oversized exhibits.
- A document or item that cannot be converted to a PDF.
- Original wills filed for the first time in a matter.
- Search Warrants.
- Grand Jury materials.
- Requests for waiver of filing fees in civil case.

## eFiling Specifications

Specifications may vary between district, chancery, and circuit courts. Refer to the Wyoming Rules for Electronic Filing and Service for examples.

## Case Class for Initial Filings

When filing a case-initiating document, select the correct case class, as it becomes part of the case number, and impacts required information in the CMS. For instance, if the criminal case class is selected, the CMS requires a charge to be entered when the clerk is processing the eFiling, whereas a civil case class does not. Choosing the wrong case class may delay processing.

Some case classes are shared between district, chancery, and circuit courts and others are specific to the jurisdiction. See the following chart.

Case Class	Abbreviation	Circuit Court	District Court	Chancery Court
Civil	CV	✓	✓	✓
Criminal	CR	✓	✓	N/A
Domestic Relations	DR	✓	✓	N/A
Citation	CT	✓	N/A	N/A
Administrative	AM	✓	N/A	N/A
Adoption	AD	N/A	✓	N/A
Juvenile	JV	N/A	✓	N/A
Juvenile Delinquency	JV	N/A	✓	N/A
Civil - Restricted	CV	N/A	✓	N/A

The case types within each class are described below:

**Civil** – Civil cases generally begin with a complaint or petition to address or prevent a wrong, to provide protection, or to enforce a right.

Case types exclusive to district court:

- Appeals to the District Court
- Guardianship and Conservatorship
- Probate

Case types exclusive to circuit court:

- Landlord/Tenant Dispute (FED)
- Stalking Protection Order
- Sexual Assault Protection Order
- Small Claims

**Criminal** – Initiated exclusively by District or County Attorneys for criminal cases.

**Domestic Relations** – For family law cases.

Cases exclusive to district court:

- Divorce, Custody and Visitation,
- Support, Paternity,
- Termination of Parental Rights

Cases exclusive to circuit court:

- Domestic Relations Protection Order

**Citation** – Initiated exclusively by District or County Attorneys for citation cases.

**Administrative** – Used in circuit court for expungement of arrest records.

**Adoption** – For adoption cases filed in the district court including proceedings for adoptees desiring to learn information about their biological parents. This case class is automatically suppressed when created. Types of cases in this category include:

- Adoption
- Confidential Intermediary

**Juvenile** – Initiated exclusively by District or County Attorneys for juvenile cases filed in the district court involving child welfare and juvenile justice that provide for the safety and well-being of children, while protecting the rights of parents. These cases are automatically suppressed when created. Types of cases in this category include:

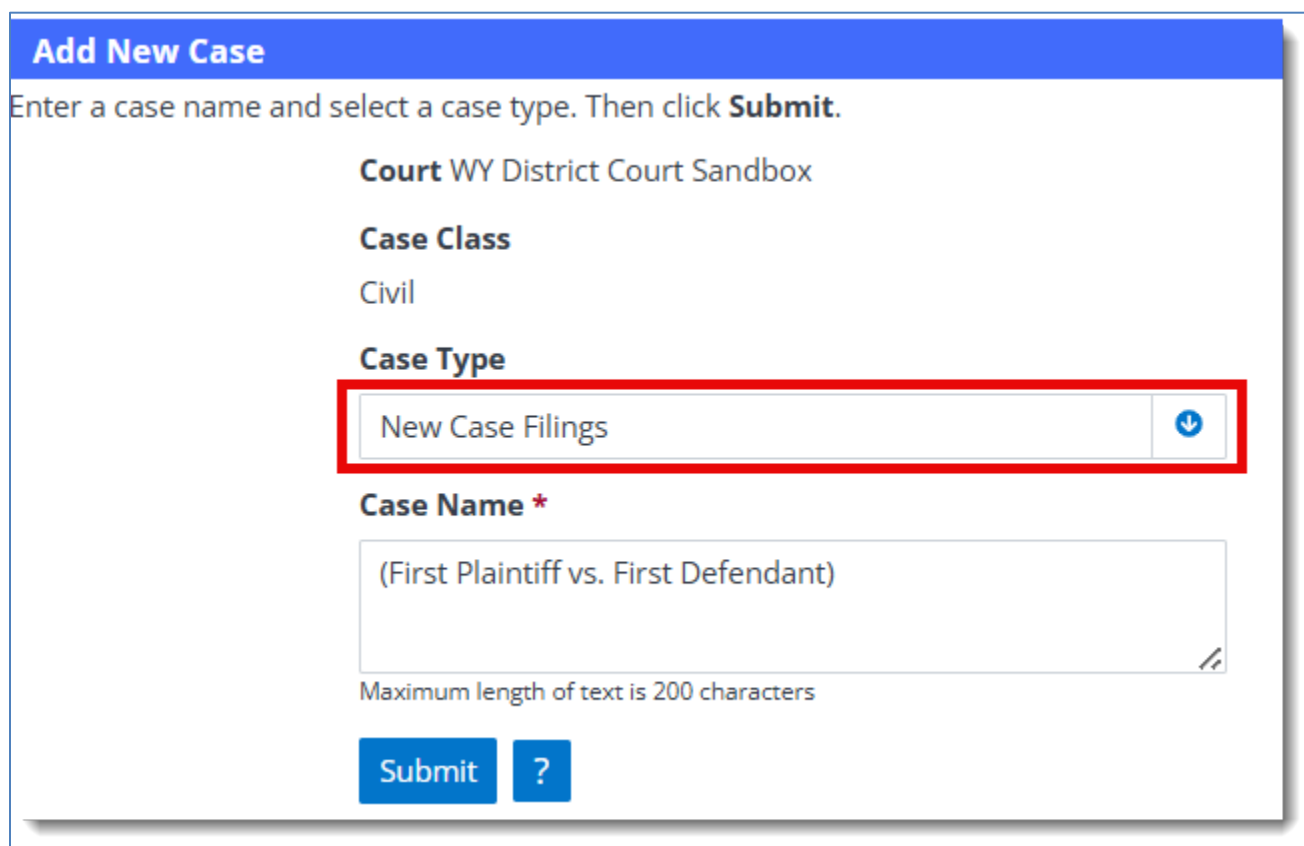

- Abuse and/or Neglect cases
- Child in Need of Supervision (CHINS) cases

**Juvenile Delinquency** – Initiated exclusively by District or County Attorneys for juvenile cases filed in the district court involving criminal charges. These cases are automatically suppressed when created.

**Civil – Restricted** – For Involuntary Hospitalizations cases filed in the district court. This case class is automatically suppressed when created.

## Document Types and Formatting Requirements

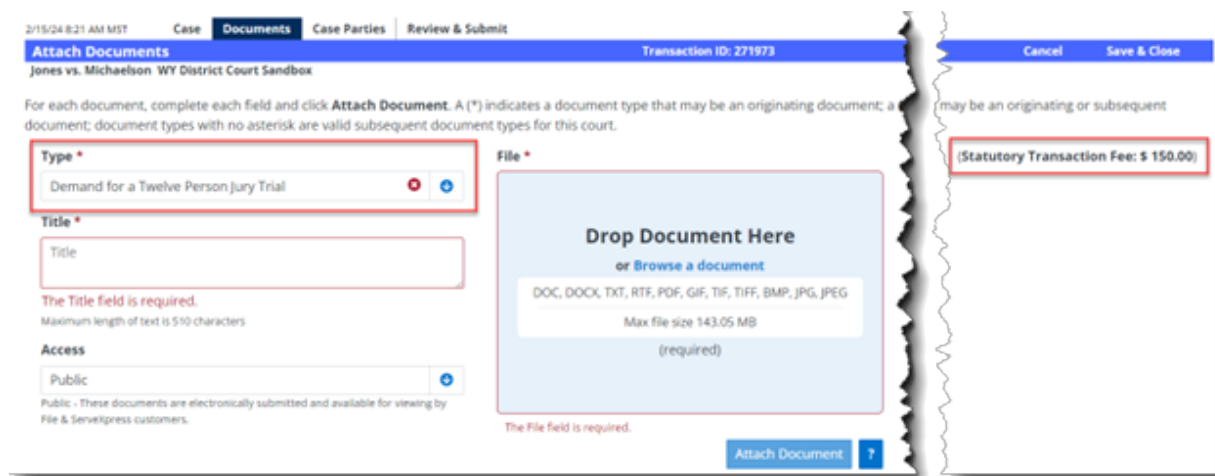

The Document Type determines how the document will be processed and what fees apply. It's important to carefully choose the correct Document Type, as it not only affects the processing method but also ensures that any associated fees, such as those for case-initiating filings, are accurately applied.

The following section outlines the different Document Types, handling processes, and related considerations to ensure accurate and efficient filing.

### Choosing a Document Type

Document Types allow attorneys to give a basic description of the document that is being submitted. The descriptions appear in the FSX Case History pages.

The fees for each filing vary depending on the Document Type selected. For example, case-initiating filings must include a Document Type that ends with an asterisk [\*], a code that enables the CMS to create a new case. As another example, selecting the Document Type "Demand for a Twelve Person Jury Trial" results in a statutory fee of \$150.00.

The screenshot shows the 'Attach Documents' interface for a case titled 'Jones vs. Michaelson WY District Court Sandbox'. The interface includes a 'Type \*' dropdown menu with 'Demand for a Twelve Person Jury Trial' selected. Below this is a 'Title \*' text input field with a red border and a message: 'The Title field is required. Maximum length of text is 510 characters'. There is also an 'Access' dropdown menu set to 'Public'. A central 'Drop Document Here' area lists supported file formats (DOC, DOCX, TXT, RTF, PDF, GIF, TIF, TIFF, BMP, JPG, JPEG) and a maximum file size of 143.05 MB. A 'File \*' label is positioned above this area. At the bottom right, there is an 'Attach Document' button. On the right side of the interface, a 'Statutory Transaction Fee: \$ 150.00' is displayed in a red-bordered box.

When submitting filings, be sure to select the Document Type that most closely matches the document that is being eFiled and that the appropriate fee appears for the filing. Contact the clerk if you are unsure about the proper selection, or if you have questions about the amount that shows for a particular Document Type.

## Choosing Document Access

Select the appropriate access level for each document using the Access drop-down. Descriptions for each access level can be found under the “Document Access Levels” in the Definitions section.

When selecting documents to eFile, FSX provides Filers with two security levels to choose from:

- **Public or Secure Public:** Documents are electronically submitted and viewable by all listed parties on the case.
- **In Camera, electronic:** The highest level of security, restricting viewing access to only the judge, the document submitter, and the authorizing attorney in FSX.

## Requirements for Unredacted and Confidential Filings

As of November 17, 2025, Filers are no longer able to choose “Sealed” as a security level for documents. Rule 10 of the Wyoming Rules for Electronic Filing and Service was amended with responsibilities to Filers submitting unredacted documents as well as confidential documents intending to be restricted. Once indicated, clerks must take steps to mark documents as “Sealed” in FCE.

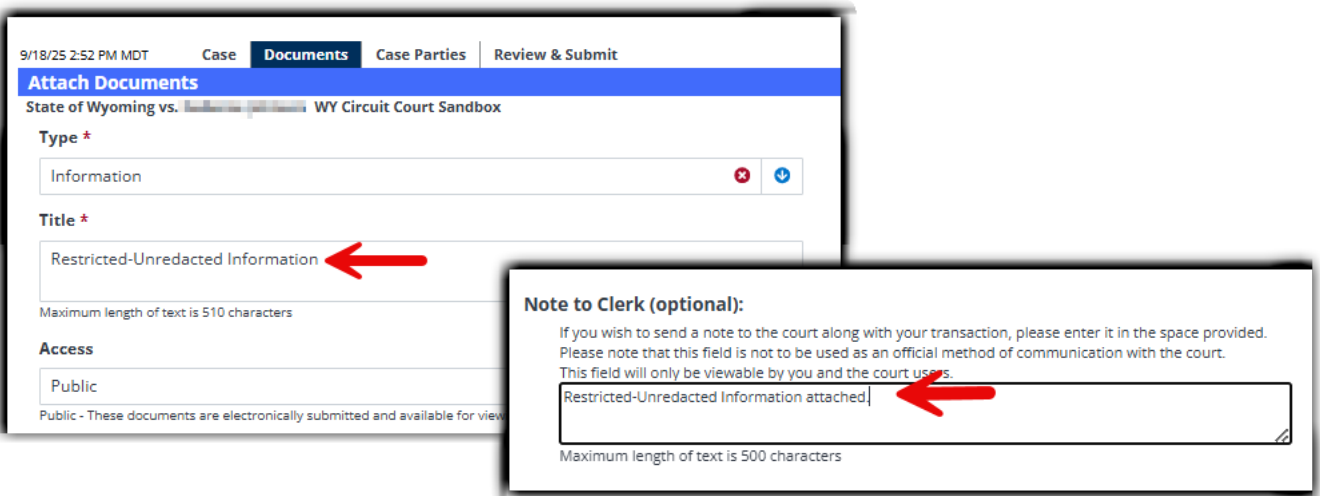

Refer to the *Wyoming Rules Governing Access to Court Records* for guidance on when documents are required to be sealed or redacted. Whenever an unredacted document is submitted, a corresponding redacted document is also required.

### Unredacted Document Filings

Filers must designate the unredacted filing as restricted by entering:

1. “**Restricted – Unredacted**” in the document title, and
2. “**Restricted – Unredacted**” in the Note to Clerk field.

**NOTE:** These instructions must be followed for clerks to mark a document sealed in a public case.

The screenshot shows the 'Attach Documents' interface in the FSX system. The page title is '9/18/25 2:52 PM MDT' and the navigation tabs are 'Case', 'Documents', 'Case Parties', and 'Review & Submit'. The main heading is 'Attach Documents' and the case name is 'State of Wyoming vs. [REDACTED] WY Circuit Court Sandbox'. The 'Type' dropdown menu is set to 'Information'. The 'Title' field contains the text 'Restricted-Unredacted Information', with a red arrow pointing to it. Below the title field, it states 'Maximum length of text is 510 characters'. The 'Access' dropdown menu is set to 'Public'. Below the access field, it states 'Public - These documents are electronically submitted and available for view'. To the right, there is a 'Note to Clerk (optional):' section. The text in this section reads: 'If you wish to send a note to the court along with your transaction, please enter it in the space provided. Please note that this field is not to be used as an official method of communication with the court. This field will only be viewable by you and the court users.' The text box contains 'Restricted-Unredacted Information attached', with a red arrow pointing to it. Below the text box, it states 'Maximum length of text is 500 characters'.

## Proposed Document Types

Depending on the proposed document type selected; there are three distinct handling processes: (1) Judge Review, wherein the document remains without a file stamp until submitted by the judge; (2) CMS entry with automatic file stamping; or (3) submission to the CMS for clerk processing without automatic file stamping. Below is a list of proposed document types and the appropriate handling process as described above.

<b>Circuit Court</b>	
Proposed Findings of Fact and Conclusions of Law	(2)
Proposed Item for Issuance by Clerk	(3)
Proposed Jury Instructions	(2)

Proposed Writ of Garnishment	(3)
Proposed Writ of Habeas Corpus	(3)
Proposed Writ of Mandamus	(3)
Proposed Writ of Replevin	(3)

### 1. Judge Review

The Proposed Order document type must be uploaded as an editable Word document and be listed as a supporting document to another document type within the same transaction, such as a Motion, Petition, or Notice of Proposed Order (see section on Main and Supporting Documents).

The main document submitted with the proposed order is file stamped. All of the documents in the transaction are sent to the court's CMS for quality control. Once the quality control process is complete, the proposed order is routed to the judge for review.

The document is not filed stamped until the judge completes processing.

**NOTE:** Proposed Stipulated Orders may be eFiled in PDF format.

**2. CMS Entry with Automatic File Stamp**

**Proposed Findings of Fact and Conclusions of Law** and **Proposed Jury Instructions** will be routed to the CMS for quality control and **will** be automatically file stamped.

**3. CMS Entry for Clerk Review**

All other Proposed Document Types in the list above will be routed to the CMS for clerk review but **will not** be automatically file stamped. After approval, the clerk will file stamp the document.

**NOTE:** Filers are responsible for remedying any filing submitted in error.

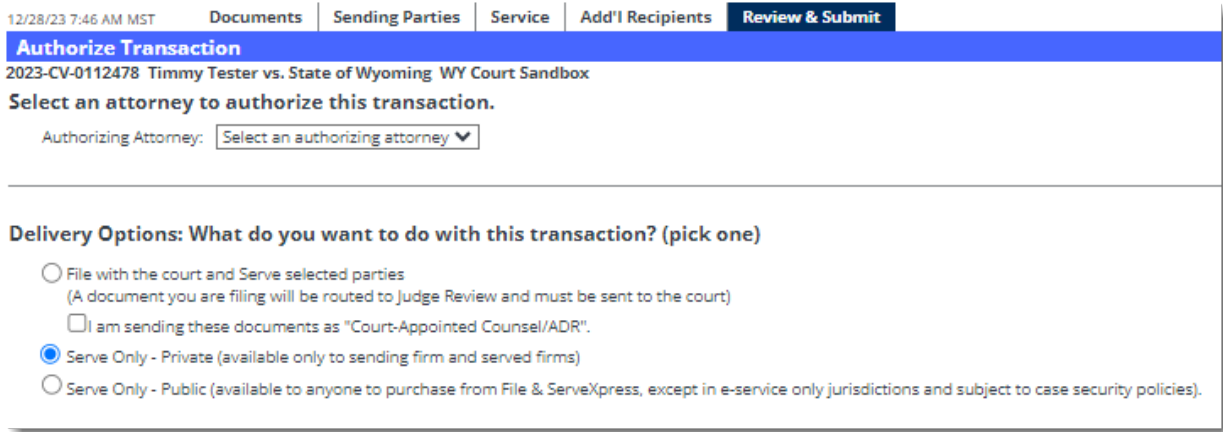

**SERVE ONLY – Document Types**

These document types are designated for serving other parties involved in a case and should **not** be filed with the court. Below is a list of document types that fall under the “Serve Only” category.

SERVE ONLY – Discovery Response	SERVE ONLY- Request for Admission
SERVE ONLY- Deposition Notice	SERVE ONLY- Request for Production
SERVE ONLY- Discovery Request	SERVE ONLY- Responses and/or Objections to Interrogatories
SERVE ONLY- Deposition by Written Questions	SERVE ONLY- Responses and/or Objections to Deposition by Written Questions
SERVE ONLY- Expert Disclosure	SERVE ONLY- Responses and/or Objections to Notice of Deposition
SERVE ONLY- Initial Disclosures	SERVE ONLY- Responses and/or objections to Request for Admission
SERVE ONLY- Interrogatories	SERVE ONLY- Responses and/or Objections to Request of Production

Serve-Only Document Types, although listed alongside other document types in the drop-down menu, require Filers to take **extra precautions** to prevent them from being filed with the court. All documents within a single transaction are dispatched in the same manner. To designate the

delivery method for all documents in the transaction, navigate to the **Review & Submit Tab** and select **"Serve Only – Private"** (accessible solely to the sending firm and served firms).

## Document Format Requirements

Current document format requirements can be found in the *Wyoming Rules for Electronic Filing and Service*.

Current document format requirements include, but are not limited to:

- Documents need to be converted to .pdf rather than scanned when feasible.
- Document must be 8 ½" by 11" in original form.
- Attachments or appendices that are larger or smaller should be reduced or enlarged to 8 ½" by 11".
- Font of no less than 12-point.
- Be clearly legible.
- A document that is not an attachment or exhibit must not be embedded inside another .pdf.

**NOTE:** Leave a blank space at the top for the automatic file stamp and the judge's banner (see current rules for specific guidelines) on the first page of each eFiled document. The document uploaded in FSX and submitted to the court becomes the official record upon eFiling. The court will no longer have a paper record to refer to if the scan is not legible.

## Document Recommendations

- Scan in black and white when possible.
- Scan with 200 DPI when possible.
- Only scan color when necessary for purposes of clarity.
- Submit documents in portrait orientation, not landscape.

## File Size Limits

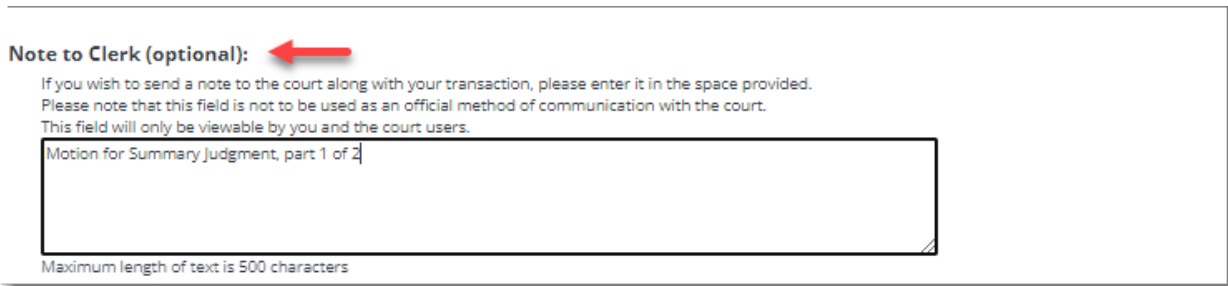

Each document must adhere to a file size limit of 150 megabytes (MB). Multiple documents can be filed at the same time, as long as the entire transaction does not exceed the limit of 150MB.

A document that exceeds the size limit must be broken down and submitted as separate files that fulfill the 150MB limit. Title the documents and use the “main” and “supporting” functionality of FSX to link the documents together.

**NOTE:** See section on Main and Supporting Documents for further information on the functionality of linking documents together.

For filings too large for a single transaction, use the **Note to Clerk** field in the Review & Submit tab (shown below) to describe the part of the document the file represents.

Example: “Motion for Summary Judgment, part 1 of 2.”

**Note to Clerk (optional):** ←

If you wish to send a note to the court along with your transaction, please enter it in the space provided. Please note that this field is not to be used as an official method of communication with the court. This field will only be viewable by you and the court users.

Motion for Summary Judgment, part 1 of 2

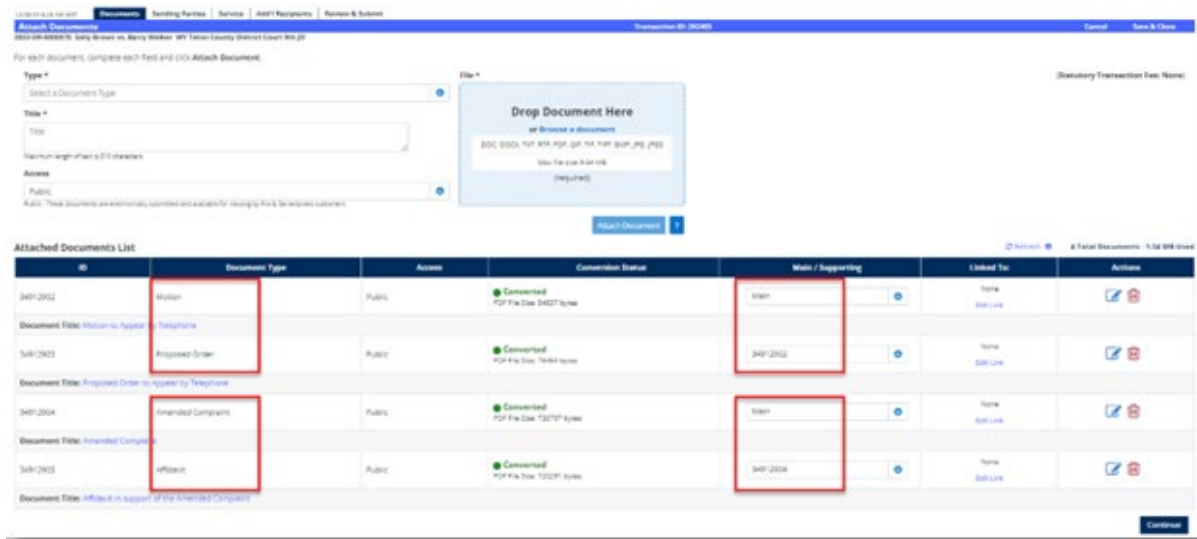

Maximum length of text is 500 characters

## Main and Supporting Documents

The Wyoming eFiling rules require that “[all] eFiled documents relating to a single pleading or document submitted in the same electronic transaction shall be ‘electronically stapled’ using the ‘main’ and ‘supporting’ functionality of the Electronic Filing System (EFS) so multiple related documents, such as a motion and proposed order, are linked logically together and identified as a single transaction.” A Main document is any filing that stands on its own and would receive its own docket entry, while a Supporting document exists solely to accompany a Main filing and would not be docketed independently.

Documents that must be filed as Main, even if they relate to another Main filing, include a Memorandum or Brief in Support of a Motion, a Request for Hearing, a Notice of Filing, or an Affidavit that is intended to be filed independently rather than as an exhibit. Documents that should be filed as Supporting include proposed orders, exhibits, certificates of service, and appendices that are attached to and support a specific Main document.

The example below depicts a filing with two “main” documents and one “supporting” document for each main document.

**NOTE:** Multiple "Supporting" documents may be attached to a single "Main" document.

## Case Number Formats for Subsequent Filings

To submit a subsequent eFiling in FSX, the complete case number must be used, including the full year and the preceding zeros in the numerical portion of the case number. The sequence for circuit and district court differs but they both use the same type of information; Y=year, C=case class, and N=numerical value.

- The case number format used in the district court CMS is YYYY-CC-NNNNNNN, e.g., 2023-DR-0000523.
- The case number format used in the circuit court CMS is CC-YYYY-NNNNNNN, e.g., CV-2023-0001485.
- Chancery court uses year and numerical value and "CH" for the case class. The case number format is: CH-YYY-NNNNNNN, e.g., CH-2025-0000127.

Contact the court to verify the complete case number if needed. For confidential cases, obtain the case number from the party.

## Filing an Initial Appearance

Attorneys may eFile an initial appearance on confidential and non-confidential existing cases by submitting a subsequent filing and attaching a document, such as an entry of appearance. The full case number is needed in order to complete this process.

Once the clerk processes the filing and adds the attorney on the case in the CMS, the attorney will gain access to the case in FSX. Access includes visibility into case documents and confidential parties.

This section covers instructions on filing an initial appearance on:

- Non-confidential cases when the party is listed on the case but not represented.
- Non-confidential cases when the party is listed on the case and already represented.
- Confidential cases when the party is listed on the case.

**NOTE:** Attorneys may add a new party to the case using the instructions in *Adding New Parties to an Existing Case*.

### Initial Appearance on Non-Confidential Cases - Party Not Represented

Use this process to join a case when the party is not already represented by counsel. Non-confidential cases are viewable in FSX with limited information. To join the case and submit an entry of appearance:

1. Enter the **case number** in the Quick Start menu.
2. Click **File/Serve**.
3. Attach documents to the transaction.
4. Select the appropriate **party checkbox** and select an **Attorney Type** on the Sending Parties Tab. Party names are viewable unless marked as confidential.
5. Then, continue processing.

## Initial Appearance on Confidential Cases

To eFile an initial appearance on a confidential case, attorneys must submit a subsequent filing and attach a document, such as an entry of appearance. The full case number is needed prior to filing and attorneys will utilize the feature, "File into a Secure Case using the Secure Respondent Transaction." Courts are not at liberty to disclose confidential case numbers to attorneys or staff so the case number must be obtained from the party.

**NOTE:** This process includes an attestation and **must** be completed by a Wyoming attorney with a current Bar ID. Staff are not able to accept the agreement.

Certain case types have restricted access due to their sensitive nature. Attorneys cannot use the Quick Search functionality in FSX to locate confidential case types.

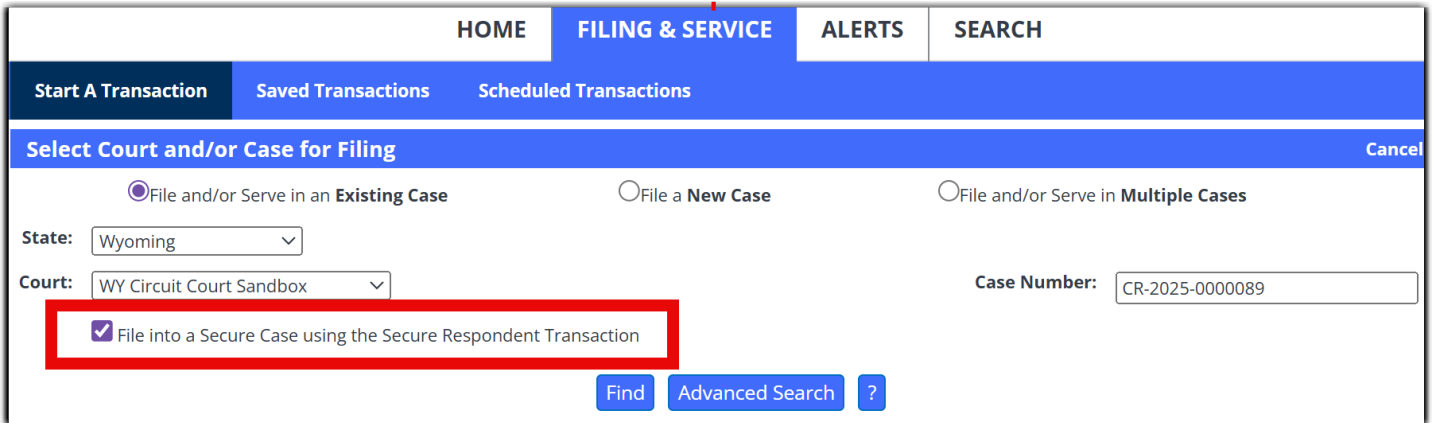

Confidential case types include:

- Adoption cases
- Juvenile cases
- Involuntary hospitalization cases
- Sexual assault protection order cases
- Paternity (until established)
- Criminal sexual assault cases
- Any other case marked confidential

To eFile an initial appearance on a confidential case:

1. Hover over **Filing & Service** and select **Start a Transaction**.
2. Select **File and/or Service in an Existing Case**.
3. Choose the **State** from the drop-down menu and the correct **court**.
4. Select **File into a Secure Case using the Secure Respondent Transaction**.
5. Enter the **full case number**, including preceding zeros, in the Case Number field.

Submitting an Entry of Appearance for the defendant, William Shakesword.

Maximum length of text is 500 characters

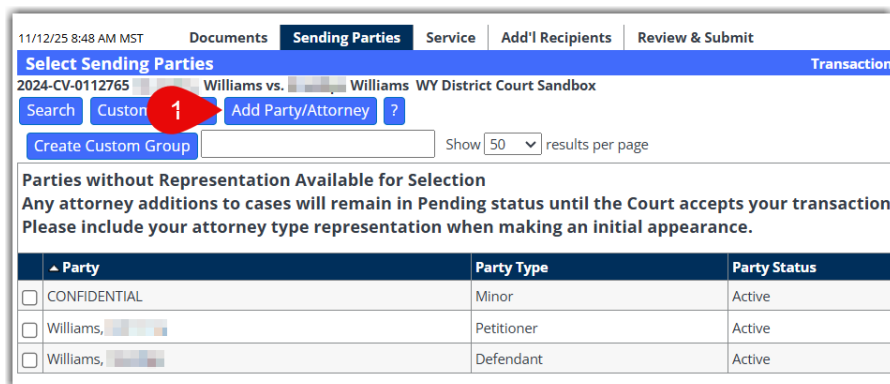

Once the filing is processed by the clerk, the attorney is added to the case.

## Adding New Parties to an Existing Case

To add a new party to an existing case an attorney must submit a subsequent filing. This is typically used when representing someone not yet listed in the case, such as a new defendant or an intervenor. The process is the same for confidential and non-confidential cases. After the clerk processes the filing and adds the attorney to the case, the attorney gains access to documents and confidential party names.

Start a subsequent filing and attach the document. On the **Sending Parties** tab, search for the party and either select from the results or add the party.

1. Click **Add Party/Attorney**.

## Non-Party Case Filings

For non-party filings, traditional filing methods must be used. Consult with the court clerk for specific requirements.

## Definitions

**In Camera, electronic** – a security option in FSX for electronically submitted documents that restricts access to the judge, the submitter, and the authorizing attorney who submitted the document.

**Public** – a security option in FSX for electronically submitted documents on non-confidential cases that makes the document viewable to all parties' attorneys on the case.

**Secure Public** – a security option in FSX for electronically submitted documents on confidential cases that makes the documents viewable to all parties' attorneys on the case.

**Suppressed** – these documents within a Suppressed case are electronically submitted to and viewable by the court and all listed parties' attorneys on the case.

**Traditional Filing** – this document type listed on many Case History screens indicates that the court clerk received the filing at the courthouse "over the counter" and not through FSX.
